This website, with domain *www.irisglobal.es*, has developed this Cookies Policy, with the aim of informing the user of the website of the essential aspects regarding the installation and use of cookies on the aforementioned website.

Introduction

In order to offer the services and functionalities of this website, we use different types of cookies, first-party and third-party cookies, as reported in the cookie settings and management panel of this website.

What are cookies?

A cookie is a file that is downloaded to your device when you access certain websites. Cookies allow a website, among other things, to operate the website itself and to check essential aspects, such as the user's identity in the case of individual requests.

Cookies can affect the privacy of users; for this reason, we would like to provide you with the necessary information on the type of cookies used on the website, so that you have full decision-making power in relation to their use and the protection of your privacy.

In this regard, we inform you that in order to be able to use all the services and functionalities of the website, it is necessary to enable cookies in your Internet browser.

What cookies do we use?

This website offers its users a cookie settings panel through which users can manage their preferences in relation to the installation or not of cookies on their equipment, as well as obtain detailed information on the types of cookies used by this website and the characteristics of each of the cookies used.

The cookie settings panel is shown to the user on their first visit to the website.

How to delete cookies?

To restrict or block cookies, you must modify the settings of the browser you use on your computer, smartphone, or tablet.

In general, browsers offer the following settings in relation to the installation of cookies:

- The browser rejects all cookies and, therefore, no cookie from any website is installed on your device.
- The browser notifies you before installing the cookie for you to decide whether or not to enable installation.
- The browser only rejects third-party cookies from websites you visit, but not those used by the website you are browsing.
- The option of browsing in private mode, whereby cookies are installed on the device, but are automatically deleted when you finish browsing the website. The following links provide information about browsing in private mode in the most commonly used Internet browsers:
